SUMMARY

Flutter Developer with 6+ months of hands-on experience building production-ready mobile applications. Strong in Provider-based state management, REST API integration, and offline-first architecture.

EXPERIENCE

Flutter Intern

Tenacious Techies

August 2025 - February 2026, Udhna Dervaja, Surat

- Cross-Platform Architecture: Developed scalable mobile solutions using the Dart SDK and Provider, managing complex state across 10+ screens with a focus on clean architecture.
- Data Management & Integration: Engineered robust local persistence using Drift (SQL) and Hive, while streamlining REST API integration in collaboration with .NET backend teams.
- UI & Performance Optimization: Translated 15+ high-fidelity mockups into responsive components and utilized Flutter DevTools to resolve technical debt, significantly improving app latency.

Android Developer Intern

Stem Velly

June 2024 - August 2024, Athwa Gate, Surat

- Cloud Integration & Security: Implemented Firebase Authentication and a real-time cloud-synced cart system, ensuring persistent user sessions and secure data management.
- UI & Stability: Designed 12+ responsive UI screens and utilized Android debugging tools to resolve critical logic errors, ensuring a stable and consistent cross-device experience.
- Resolved 15+ critical logic errors using Android profiling tools, ensuring 100% stability for complex features like multi-category navigation and product info retrieval.

PROJECT

Feedback System

- Built a scalable Flutter feedback system supporting 10+ feedback types with dynamic form generation
- Implemented Provider-based state management to handle form state, validation, and real-time UI updates
- Integrated REST APIs with proper loading, error, and empty-state handling
- Developed a centralized admin dashboard for reviewing, filtering, and managing user feedback

Expense & Income Tracker

- Offline-first Flutter application built using Drift (SQLite) and Hive to ensure reliable local data persistence and seamless offline access.
- Implemented dynamic theme switching using Provider, enabling persistent light and dark mode preferences across user sessions.
- Integrated secure authentication and cloud data synchronization to maintain consistent user state and data integrity across devices.

EDUCATION

Diploma In Information Technology

Dr S. & S. S. Ghandhi College of Engineering and Technology • Surat • 2022 - 2025

- Core Fundamentals: Proficient in Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), and Software Engineering Principles.
- Systems & Security: Skilled in Database Management (SQL), Computer Networks, and Network Security.

SKILLS

Mobile Development : Flutter, Android SDK, Dart, Provider, Material Design 3

Database: SQLite, Drift, Hive, Relational Mapping

API: REST APIs, JSON, Postman,

Development Tools: Git, GitHub, Flutter DevTools,

Architecture & Design: Clean Architecture, Modular Design, Responsive UI
